Sat, October 17, 2026
7:00 AM - 1:00 PM

NEW 2026 HEALTH PERKS!

Testosterone is NOW included
for MEN and Vitamin D for WOMEN

— IBEW Local 82 Member

"We attended the health screenings offered by the union (IBEW Local 82) and consider it a blessing that we did. My husband has a history of a stent in his subclavian artery. But, they do not check his Abdominal Aorta. A small aneurysm was detected and will now be monitored by his physician. We are very thankful."

of screenings offered

HEALTH SCREENINGS

FASTING IS **OPTIONAL**, NOT REQUIRED.

Ultrasound

Carotid Artery

Visualizes the buildup of fatty blockage in the carotid arteries (neck). This condition causes the majority of strokes.

Peripheral Artery Disease (ABI)

Checks for blockages in the legs. Abnormal results indicate high risk of coronary artery disease and peripheral artery disease.

Abdominal Aortic Aneurysm (AAA)

Visualizes the existence of an aneurysm in the abdominal aorta, which could rupture and be fatal.

Atrial Fibrillation (EKG)

This screening is used to detect irregular heartbeat (a major risk factor for stroke). This is performed by attaching EKG electrodes above your wrists and ankles.

Bloodwork & Biometrics

ALL

- Chemistry Panel
- Lipid Panel with Glucose
- Complete Blood Count (CBC) with Platelets
- High Sensitivity CRP
