**Heather M.
Laborers 309**

I came to my husband's union hall yearly health check. We started coming because we thought it was a great way to give back to employees and to check their overall health. When my husband and myself came to the 2023 yearly check, they found some nodules on my thyroid. They printed out images and instructed me to take to my doctors. I soon after found out I had thyroid cancer. Thanks to this screening, because I may have never known. This is a very good thing they offer to employees and spouses.
