STRONG WORK. STRONG HEALTH. STRONGER FUTURES.

“

Jody Roe
Retiree,
IBEW 292

I've always considered myself to be in excellent health, so I was completely surprised when a carotid artery screening revealed significant blockage in both of my carotid arteries. I had no symptoms and felt perfectly fine. Follow-up testing confirmed the findings, and I have since undergone surgery on both sides. Without this screening, I would never have known I had this potentially life-threatening condition. As a retired Fund Administrator, I understand how important it is to offer benefits that truly make a difference for our members. This screening may have saved my life by detecting a condition that could have resulted in a devastating stroke. I encourage every eligible member to take advantage of these screenings, even if you feel healthy. Early detection saves lives, and I sincerely hope our Fund continues providing this invaluable benefit so more members can receive the same opportunity I did.

ULTRASOUND

CAROTID ARTERY

Visualizes the buildup of fatty blockage in the carotid arteries (neck). This condition causes the majority of strokes.

PERIPHERAL ARTERY DISEASE (ABI)

Checks for blockages in the legs. Abnormal results indicate high risk of coronary artery disease and peripheral artery disease.

ABDOMINAL AORTIC ANEURYSM (AAA)

Visualizes the existence of an aneurysm in the abdominal aorta, which could rupture and be fatal.

BLOODWORK

Chemistry & Lipid Panel with Glucose

Complete Blood Count (CBC w/ Platelets)

Hemoglobin A1c

Average blood sugar (glucose) for the last 3 months.
Primary screening tool for prediabetes, type 1 & 2 diabetes.

Prostate-Specific Antigen Test (PSA) for Men

Thyroid Stimulating Hormone (TSH)

High Sensitivity - C Reative Protein (HS-CRP)

General Oncology Marker

Vitamin D

PRE-EVENT

Sign up for your screening appointment using the online scheduling system or call the number for our dedicated scheduling center. (All info below.)

DAY OF EVENT

You will be greeted by our staff and asked to sign a consent form. We are happy to answer any questions you have about the process.

You will be guided to each screening station and will receive an explanation of screenings and results as you go through the event.

All ultrasound screening results will be provided to you at the event.

POST EVENT

Results from **all screenings** will be available in our secure online portal in 10-14 business days.

ALLOW 1 HOUR FOR SCREENING.
