Preventive health screenings are a great opportunity for our members to stay informed about their health and identify potential concerns before they become serious. These screenings provide valuable insight into your overall health and help you take steps toward a healthier future. I encourage every eligible member to take advantage of this important benefit provided by our Health Fund.

HEALTH SCREENINGS

FASTING **OPTIONAL**. NOT REQUIRED.

Ultrasound

Carotid Artery
Visualizes the buildup of fatty blockage in the carotid arteries (neck). This condition causes the majority of strokes.

Peripheral Artery Disease (ABI)
Checks for blockages in the legs. Abnormal results indicate high risk of coronary artery disease and peripheral artery disease.

Abdominal Aortic Aneurysm (AAA)
Visualizes the existence of an aneurysm in the abdominal aorta, which could rupture and be fatal.

Biometrics & Blood Tests

Biometrics
Height, weight, waist circumference, body mass index (BMI), blood pressure.

Lipid Panel with Glucose and Full Chemistry Panel
Provides high-level evaluation of the body's major organ functions.

Hemoglobin A1c
Average blood sugar (glucose) for the last 3 months. Primary screening tool for prediabetes, type 1 diabetes, and type 2 diabetes.

Prostate-Specific Antigen Test (PSA) for Men
Measures prostate-specific antigen (PSA) levels to help detect potential prostate abnormalities, including changes that may warrant further evaluation for prostate cancer.
